# Online Management System

By visiting the “client zone” on our website you can manage your music and booking online 24/7

## Manage Playlist

We know how important it is we play the songs you love. Our playlist manager allows you to submit songs into various categories before your event.

You can even share the link with your guests to allow them to select songs in advance. Don't worry though you have ultimate control and can delete requests if they are not appropriate.

Add songs to your “general” list to give us an idea of the genres of music you would like to hear.

If there's anything you definitely do not want to hear just add it to the “do not play list”.

For our wedding guests you will also have the ability to select your key songs, such as ceremony entrance music and first dance.

Not too tech savvy? Don't worry we still have the personal touch. We welcome requests on the night. And are more than happy to have a conversation before your event to discuss playlists.
